

30 November 1976

STATOTHR

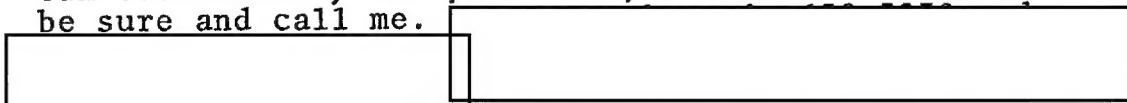

I received the National Geographic which you so thoughtfully returned and I remember well the evening during which we discussed Laos, Southeast Asia and the world. It was one of the more memorable evenings in Peking.

STATINTL

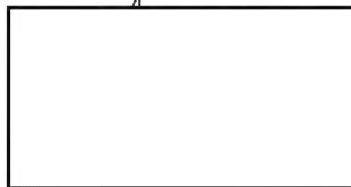

Now that you are in the United States I hope we can occasionally see you. If you come to Washington be sure and call me.

STATINTL

This is an exciting town these days with major changes in the wind. We certainly regret losing some of our old friends -- they will be hard to replace -- but we are optimistic about the future.

With regards and holiday greetings to you and your wife from Sally and me.
